

LIVE STREAMING APP

What is CamStreamer App

CamStreamer App is a smart application that runs onboard of an AXIS IP camera and streams live video right to YouTube, Facebook, Vimeo and any other RTMP, HLS, SRT MPEG-TS streaming platforms.

How CamStreamer App works

CamStreamer App leverages the power of an AXIS IP camera and sends live video right to your streaming platform. No need for an extra computer, public IP address or complex configurations.

FEATURES	SPECIFICATIONS	SOLUTION	DIFFICULTY
Online streams to platforms such as YouTube, Facebook, Vimeo, DaCast, etc.	Converts video provided by the cameras into a protocol that platforms such as YouTube, Facebook, Vimeo, DaCast, etc. can work with.	For anyone who wants to stream online over the internet – tourist centers, zoos, for birdwatching, cities, sports and social events, churches, yoga etc.	EASY - Can be done by end-user
Conversion of video provided by the camera into a different format and distribution via a selected protocol.	Packs video to RTMP, SRT, MPEG-TS, HLS transport protocols. Works with H.264 and MPEG-2 codecs.	Anyone who has specific needs for codec or transport protocol. For example TV stations, traffic police, camera aggregators, etc.	MEDIUM - For advanced users, resellers or system integrators
Remote live stream control via API or I/O HW buttons.	API commands to START/STOP streams from a browser, mobile or any hardware button connected with AXIS camera via a cable.	For anyone who wants control the streams via API or remotely without any special development.	MEDIUM - For advanced users, resellers or system integrators

Key benefits

Embedded in camera; No PC needed; Easy configuration; Many protocols and platforms | Multiple streams | Excellent video quality | PTZ camera tours | Digital auto-tracking | Local live audio, network audio or MP3 local audio loop | Time schedules | Stream triggers | CamStreamer API | Controlled by hardware button (rocker switch) ... check all at www.camstreamer.com

One-time payment for life-time license with 1 year of support

\$299 or **269 €**
