# ÆLEMENT FUSION

# AN EVOLUTION IN HOTEL LOCK ENGINEERING BY SALTO

## INTRODUCING THE NEXT LEVEL OF CONNECTIVITY WITH YOUR GUEST

Ælement Fusion is an electronic lock with a sleek reader accentuated by an interactive light ring that illuminates when access credentials are presented, providing a minimalistic design that blends with any hotel décor.

## INVISIBLE INNOVATION

Electronic circuit board and battery pack.

## THE CHOICE IS YOURS

Choose the reader finish & handle designs that best fits your hotel style

## MOBILE TECHNOLOGY

Wireless & mobile embedded onboard.

# INVISIBLE INNOVATION

## ELECTRONIC CIRCUIT BOARD AND BATTERY PACK.

Ælement Fusion eliminates lock hardware on the door by encasing all electronic components inside the door itself, making security virtually invisible.

Enclosing the lock hardware inside the door – instead of just above the handle, as is customary – gives the door a stylish and sleek appearance. Security is also further enhanced by placing all lock components within the door.

Despite the “invisible innovation” – and the absence of traditional door lock hardware – the Ælement Fusion performs just as any SALTO electronic lock. It combines SALTO’s stand-alone, battery-powered electronic lock technology and SALTO Virtual Network (SVN) data-on-card, advanced wireless technology with online, real-time monitoring and mobile access technology with NFC & BLE capabilities.

### DESIGN

Clean, minimalistic new round design that blends with any hotel décor.

### FACEPLATE FINISH

### READER FINISH

### MODEL

ANSI

### TECHNOLOGY

### PLATFORMS

## THE CHOICE IS YOURS

### CHOOSE THE READER FINISH & HANDLE DESIGNS THAT BEST FITS YOUR HOTEL STYLE.

The Ælement Fusion's small, customizable light ring reader offers a discreet electronic lock for hotels looking to deploy electronic access control with a stylish, yet technologically-advanced solution. SALTO offers a variety of door handles and finishes to complement any door style.

#### Colombo design by SALTO:

Stylish design is part of SALTO's DNA, so when it comes to selecting handles for your doors we believe you should be able to choose from the very best available.

With the objective of always offering more to its customers, SALTO has teamed up with one of Italy's leading handle designers, Colombo design Design.

Colombo design will make its best designs available for customers to choose from a high quality selection suitable for both SALTO XS4 and Ælement electronic locks range, and compatible with both ANSI standard and DIN EU door standards.

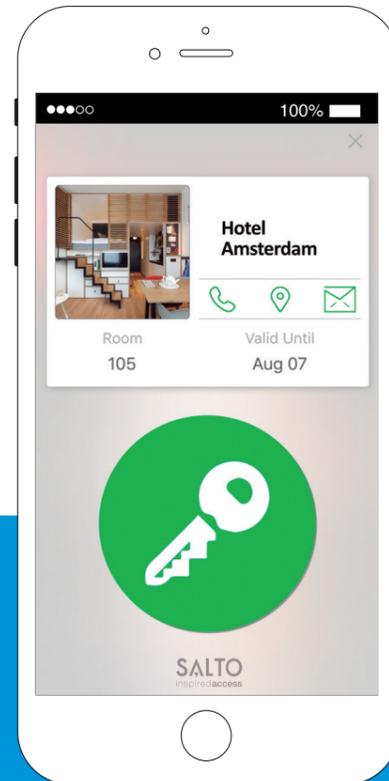

# MOBILE TECHNOLOGY

## WIRELESS & MOBILE EMBEDDED ON BOARD.

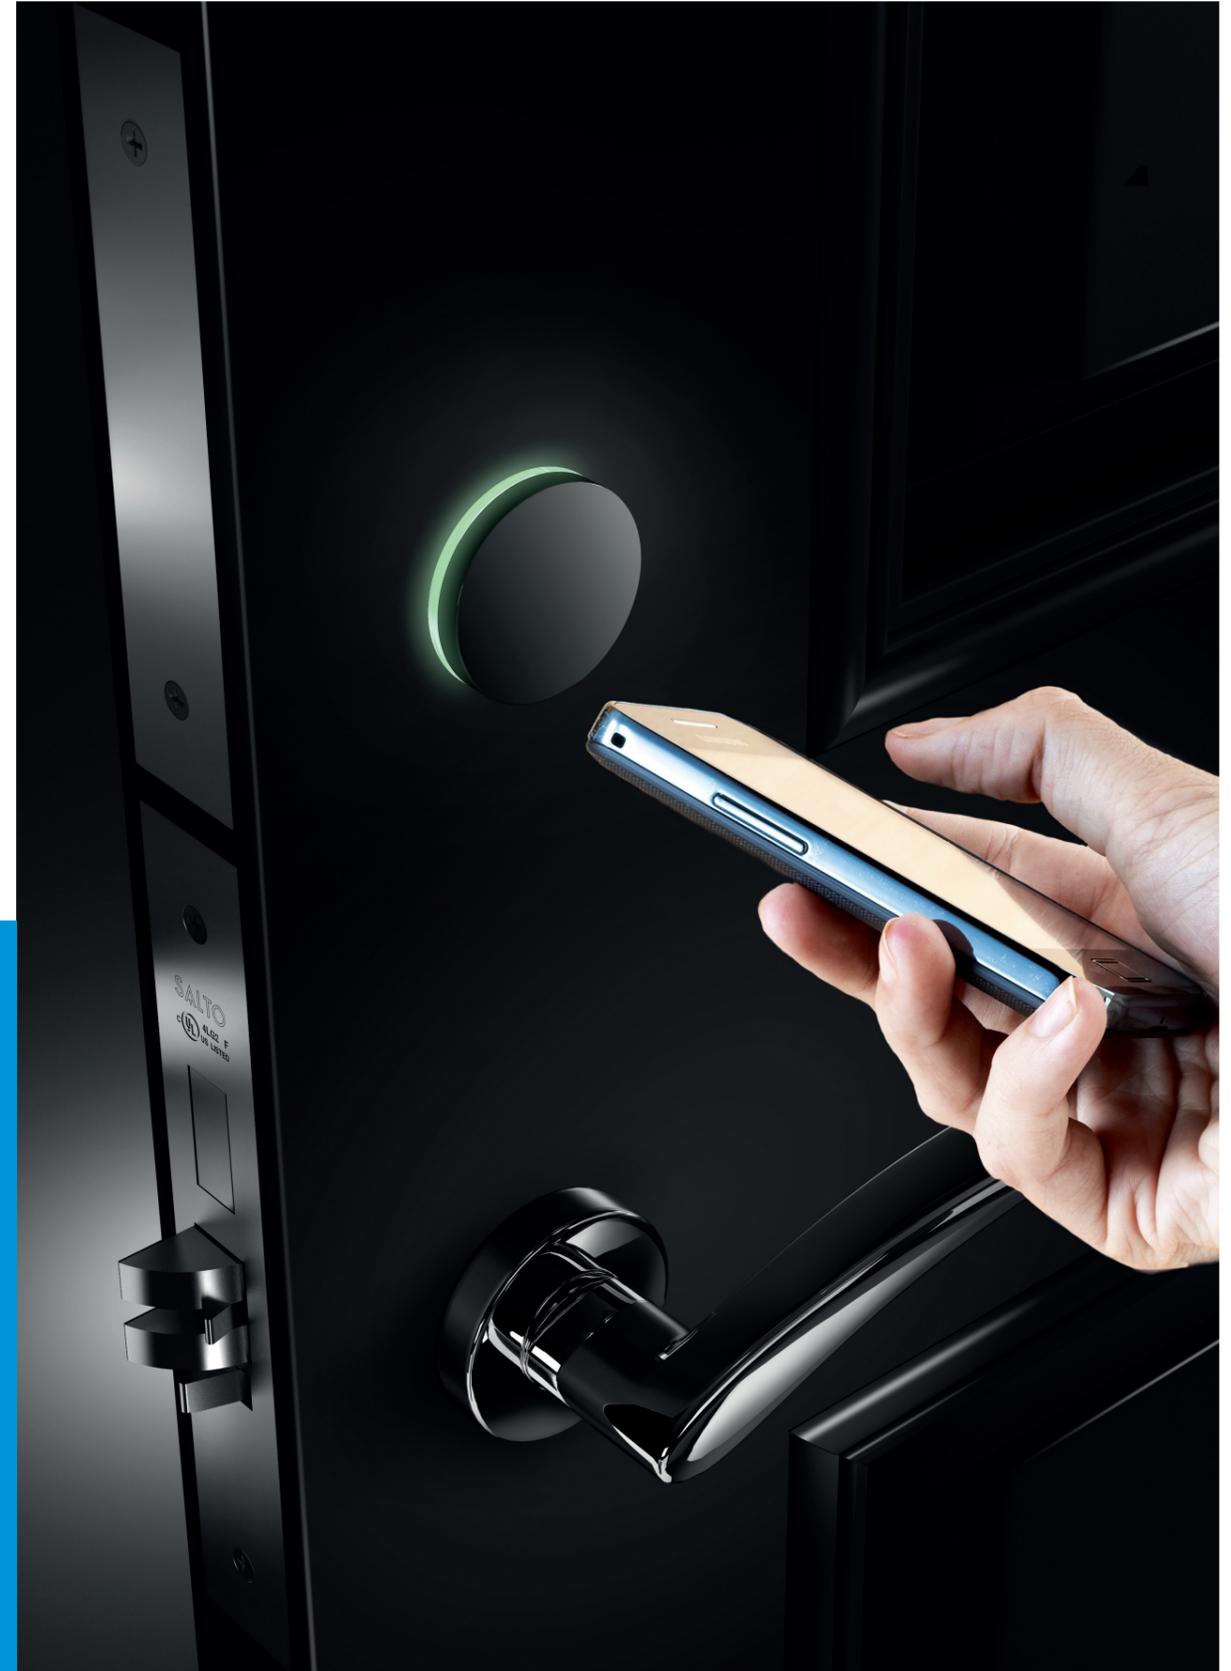

Ælement Fusion is equipped with RFID and NFC, with improved reading distance, but also adds BLE. This additional feature allows guests and staff to use their smartphone as a key.

Security, efficiency and design are all essential aspects of access control in the highly competitive hospitality sector. Ælement Fusion incorporates SALTO's stand-alone, battery powered electronic lock and technology, SVN data-on-card and advanced wireless technology with online, real-time capabilities — all without using wires.

## JUSTIN MOBILE APP

The Justin Mobile app uses the latest in technology to communicate securely via the Cloud and enables hotel guests to receive their room key online, anytime and anywhere. The Justin Mobile app is completely secure as keys cannot be duplicated, unlike mechanical keys or some low-security RFID technologies. The encrypted data transfer uses SSL (Secure Socket Layer) AES 128-bit encryption opening procedures to ensure secure transmission.

# BUILD YOUR OWN DOOR

## CUSTOMIZE YOUR ELECTRONIC HOTEL DOOR LOCK

Select an electronic hotel lock model, door type and customize your SALTO door lock with a range of colors, finishes & handle options.

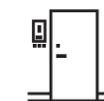

This innovative tool will allow a complete visualization and customization of the locking solutions chosen by the user. By accessing the web page, the user is able to select the door lock model online to configure and create their customized door by personalizing everything. Select a model, door type, and customize your SALTO door lock with a wide range of colors, finishes & handles. This smart tool will help visitors have an idea of the look and feel of how the solutions look on different types of doors with different finishes, and by selecting different designs and lock models.

**SALTO Hospitality continues to innovate by launching a unique tool for the hospitality industry.**

### CHOOSE YOUR ELECTRONIC HOTEL LOCK MODEL:

Choose your favorite electronic hotel lock model (ANSI, Euro or between Scandinavian standards), to create your customize door and personalise everything.

### CHOOSE YOUR DOOR TYPE AND SELECT A HANDLE DESIGN:

Choose your door type and finish and select a handle design & lockset finish that matches your door.

### DOWNLOAD AND SAVE YOUR SETTINGS:

Send us your selection, ask us a question or just contact us for a demo.

A hotel experience that you need to discover.
